Tracking committee ensures the Together in Faith process happens

Clustering, lay leadership, worship and schools

Schools and lay leadership - two areas of Father Parker's Concern

- Schools have a real history. Northwest Detroit had a School Alliance that works together, which is why there are schools on the west side.
- Conference is a very good outreach. The conference will continue to work on outreach and to refine it.
- Outreach should be sufficient. Outreach should not duplicate services that are already in place.

Every parish should have a cluster partner, or at least identify a parish to cluster

Lay Leadership

- Training needed
- Youth will play a big part
- Vicariate goal to identify four people who show a desire to receive training to use these skills for the good and mission of the vicariate
- Program will be launched soon
